- Use filters to search for PreGates created by your company and see them displayed in a list

- Create new PreGates

- Export a list of PreGates to Excel

Adding a Visit

- Select desired Terminal and move type (PICK or DROP)

- Information required changes dynamically based on move type and Terminal configuration

- Once there are no errors with the PreGate, press Save to confirm

Advance PreGate Request

- Input a list of containers and select advance selection criteria

- PreGate(s) are created at the best time given criteria and availability

Trucker Check

Manage trucks and drivers, buy RFID tags
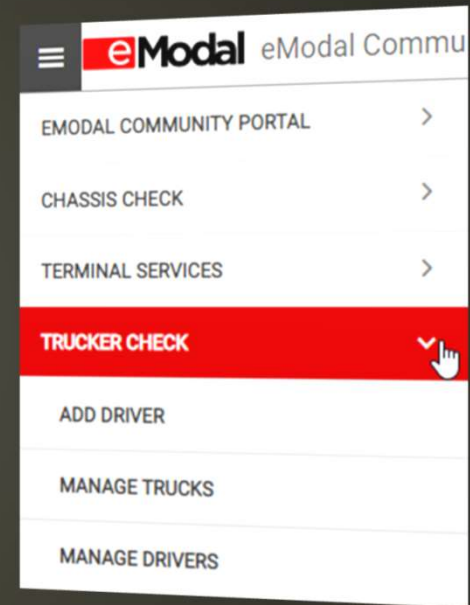

Driver Registration

- Seven step process to register a driver

- Once registered, drivers can complete container moves

- Trucks are registered to drivers. One driver can operate multiple trucks

Registered Company Consent Authorization

As a registered user of www.eModal.com, I am submitting a driver's information to this system and site, and I warrant and represent that the driver has given to me written consent to obtain such information and to transmit it to eModal.com, LLC. for dissemination to eModal's registered users, in accordance with the provisions of the Driver's Privacy Protection Act, 18 U.S.C. Article 2721 et seq. I further warrant and represent that I have advised the driver that such information may include the following: driver's first and last name, driver's license number, driver's license expiration date and state of issue, truck license plate numbers, contract period with me as well as the names of the companies who have registered the same drivers with eModal.

This registered company also warrants and represents that the driver whose information is being submitted has provided me with proof that he/she has a valid commercial driver's license as required by law.

Registered Company   Accepts Agreement ☐

[I Agree]

| Step 1: Consent | Step 2: Driver Info | Step 3: Contract & Certs | Step 4: Ports | Step 5: Truck | Step 6: Summary | Step 7: Confirm |

Advent eModal

Driver Management

- Search for a driver and manage their information
